NEAR DEATH FROM HAZING

Vigorous Stunts Required of Northwestern Students Result Almost Fatally.

MADE TO WALK THE PLANK

Victims Deprived of Food During Entire Day and Required to Perform Series of Foolish Antics.

Chicago, Nov. 2.—As the result of a hazing in which seven of the Northwestern university freshmen were forced to walk blindfolded from an ice chute into thirty feet of water in an old clay hole, three of the victims are in a serious condition, being threatened with pneumonia, while the others are just recovering from the shock.

Seized by a party of upper classmen on Friday morning, the young men were paraded, bareheaded and under guard, about the streets and finally presented with brooms, which they were instructed to use as guns and post themselves in front of the several dormitories set aside for coeds. They were required to "walk post," salute every woman who passed and repeat certain silly rhymes.

At noon the prisoners were huddled, deprived of their dinners, and at night were locked in one of the rooms of a fraternity house, where they were not allowed to speak to one another except in severe beating, and again were refused food.

About 10:30 o'clock they were again required to fall in line, march to the center of town, give the college yell and clamber in and out of a fountain. They were then marched about the principal streets, making all manner of noise until nearly midnight.

Just before midnight they were marched to South Evanston, then westward a mile and a half to a deserted clay hole, where the most dangerous part of the programme was gone through with.

On one side of the clay hole stand some old ice-houses, and from the side of one protrudes a chute extending over the water about forty feet. The freshmen were blindfolded and informed that they were about to die in the manner adopted by buccanniers of ancient times.

One by one they were marched up the rickety ladder, and then out on a plank, which terminated at the edge of the ice chute. A vigorous push hurled each of them to the water below.

After clambering out of the icy water the freshmen were compelled to walk home in their wet clothing. Three of the boys, it is said, are being cared for in secret. Their hiding place could not be learned tonight, nor would the frightened fraternity men give the name of the doctor who is attending them.

DEMOCRATIC UNTRUTH.

Parker and Bryan Guilty of Falsification Concerning the Filipinos.

It seems that Judge Parker is not more veracious than D. B. Hill and other truth-shaders of the democratic party. In his speech of acceptance on August 10 Parker made the amazing statement that the cost of maintaining American rule in the Philippines amounted to \$650,000,000, and in a speech at Esopus a few days ago, he swelled the cost to \$1,200,000,000. Either of these two sums is so far from the true amount that it was expected the democratic candidate would explain his error, but it does not seem to be his policy to make corrections. Secretary of War Taft, who has had more to do with the government of the Philippines than any other man, waited nearly two months for an explanation from Parker, but none came. Finally, on October 6, Mr. Taft, in a speech at Indianapolis, showed the utter falsity of Parker's statement, pointing out that the sum named was a gross exaggeration. Instead of over one billion dollars, or even \$650,000,000 as stated by the democratic candidate, the cost of the Philippines to the United States has been only \$169,000,000, besides the \$20,000,000 paid in Spain, making the total cost \$189,000,000. Mr. Taft added that the cost a year for maintaining courts, and the additional cost of maintaining 13,000 troops in the Philippines instead of in the United States, all taken together, do not exceed \$5,000,000 a year.

Three weeks have passed since Secretary Taft publicly called attention to Parker's misstatement, but Parker has remained silent, completely

ignoring the correction. Now comes W. J. Bryan, who has been too busy trying to straddle Parker's gold telegram and 16 to 1 to learn facts about anything, and repeats the Parker statement. Bryan is talking anti-imperialism, and, in trying to strengthen his arguments, is telling the people that the Philippines have cost \$650,000,000—the same untruth uttered by Parker. If Parker made a mistake and was too cowardly to correct it, it will become Bryan, who has nothing to gain by lying, to ape the New Yorker.

This incident is merely fresh evidence that democracy is conducting a campaign of misrepresentation and deceit.

HEAVY LUMBER SHIPMENTS.

Much Received from Canada—Michigan Big Producer.

Bay City, Mich., Nov. 2.—Lumber receipts from Canada, during October, totalled 15,200,000 feet, the aggregate for the season being \$7,600,000 feet, somewhat less than last year. The receipts of saw logs from northern Michigan, however, have increased greatly this season, over last year, the Mackinaw division of the Michigan Central railroad bringing 150,000,000 feet this season against 110,000,000 feet last season. Many million feet are still to come.

A \$5000 Colt Sold.
